PERSONAL SKILLS

About me.

I am a motivated and hardworking person that doesn't back down from a task. I'm a really outgoing, meticulous, and adaptable person. I consider myself to be a team player. I like to collaborate with others.

My dedication to my work is strong. I have a constant supply of inspiration since I enjoy what I do, which inspires me to give my all. I'm a self-driven team member with excellent organization, communication, and interpersonal skills who wants to take on the position of executive.

Experience.

Technical Officer :

I worked for six months at Onimta Information Technology (Pvt) Ltd As an IT Technical Support Officer, I install and configure computer systems, troubleshoot hardware and software, and resolve technical and application issues over the phone or in person.

As an IT technical support officer, you'll install and configure computer systems, diagnose hardware and software faults and solve technical and application problems, either over the phone or in person. You'll cover one or more areas of expertise, depending on the size of the organisation you work for. It's common practice for a technical IT support team to be divided into first and second-line support, with the second-line support staff handling the more specialised queries that the first-line support could not deal with.

Professional Qualification.

Institute	Course	Duration	Grade	Certificate No & Date
